2. Develop a sketch plan including a rough lay out of the park.
3. Present the sketch plan to the Planning Board. The Planning Board will classify as a major or minor subdivision and schedule an on-site visit. The Planning Board will also identify any design problems.

6. After approval by the Planning Board, the applicant may begin construction of the park including the roads, driveways, foundations, and septic systems.
7. Following the completion of construction, the applicant needs to apply for a license from the Selectmen to begin operation of the park.
8. Once the applicant has applied for a license, the CEO will inspect the park to ensure that it was constructed according to the standards in the ordinance and any conditions that the Planning Board placed on the approval. The CEO will make a written report to the Selectmen and they will issue a license if the park is in compliance.
